

Cuddle Ewe™ Customer Testimonials

"I purchased my Cuddle Ewe mattress cover Spring of 2005. Before that, I tried memory foam, egg crate, down feather beds, even sleeping on top of 5-6 blankets. I still woke up stiff, tired, crabby, and unproductive - every single day.

I was looking at the \$3000 beds available out there when I decided to give one last try to the Cuddle Ewe. I thought it probably wasn't going to work, since everything else less than \$1000 had failed as well.

I am so glad to say purchasing the Cuddle Ewe was the best investment I could have possibly made. I saved myself about \$2500 that I was going to spend on a new air bed, and I have never slept better in my entire life. And the flannel sheets make my bed feel like a cloud.

Thank you for making such a wonderful product!

I have been using your product for the last couple of weeks and I can not thank you enough for the first good nights sleep I have had in years. I had a kidney removed last year and had horrible scarring and pain and have been sleeping in a recliner for the last 13 months because of pain, as well as living with mixed connective tissue disease and fibromyalgia. I have daily pain, stiffness and overwhelming fatigue, which makes working full time and caring for 2 children very difficult. I have had no less than 5 hours of sleep at a stretch since using the Cuddle Ewe Underquilt and this is the longest period I have slept at one time in I cannot even remember when. My nights were spent tossing and turning and trying to get comfortable with pillows, etc. to no avail. I now can go to sleep and wake up never having even moved around and my mornings are easier as I am not nearly as stiff and my pain & fatigue are markedly improved. I see some hope for my future now. I balked originally at the cost, but it is a small price to pay to get some quality of life back. I do not know the secret to the Underquilt, but whatever it is, it is pure genius and I look forward to continued peaceful nights. I no longer dread going to bed and I am using less sleeping medications that treat only the symptoms and not the underlying problems.

Thanks for the new lease on life!!!

I have suffered from fibromyalgia for about 5 years. The worst area [is] in my legs. When I would go to bed at night after a few hours my legs would be in such pain I could not sleep. I would take sleeping pills, and pain pills and still lost a lot of sleep from the pain. My husband had to move to the spare room because I would be so restless at night from the pain. I would have to keep moving my legs because they hurt so much. Of course when I got up in the morning for work I was dead tired and stiff and still in pain. I tried many different doctors, chiropractors, physical therapy and even acupuncture. Nothing helped. I tried sleeping on the egg crate type mattress covers and even the tempurpedic mattress cover and still no relief. I went on the internet and read about [Cuddle Ewe]. It was quite expensive but after all I had been spending on other things I decided to give Cuddle Ewe a try. With the [90 day guarantee](#) I figured I had nothing to lose. Well I put it on my bed two weeks ago and the very first night I had relief. I have not had the pain in my legs since I put the underquilt on my bed. I didn't think I would ever be able to get through a night without pain, but I can honestly testify that this underquilt works. I would dread going to bed at night because I knew I was going to be in pain now I look forward to going to bed. What a great product!!! It was well worth what I paid for it."

Thank you!

"I bought our first underquilt 2 months ago. I have not had a bad day since. Before buying it, I was extremely tired to the point of misery during the daytime working hours. Weekends, I didn't want to do anything. I knew I was healthy, but I just hurt, with chronic fatigue. This went on for many years. I take vitamin supplements and exercise. Nothing really helped. I now have an underquilt for the spare bed. It is amazing how it takes away the pain and fatigue.

I want others to know, if they are afraid of 'taking the plunge' and spending the money, it is well worth it. I paid with a smile.

It is a great product, no drugs, no hassle. I am in the health field profession. I know that fibromyalgia is a diagnosis that some doctors don't really agree with. But the ones who do are very understanding. However, they need to know more of this product. I have taken the information to health food stores, and I share it with friends. I hope to help someone else. I called a friend to tell her about it, and she said 'Oh, I have had one for 13 years... I love it!!!'

So, thank you for an honest great product. The only problem is, getting out of bed because it feels so good to lie in it!!!!"

"I would like to take this opportunity to let you know that I can't live without my Cuddle Ewe mattress pad. I ordered my first one from you a few years [ago], and it is simply a miracle. I have tried several different pads, including the magnetic type, and Cuddle Ewe is the only pad I use now. I am ordering a second for my vacation home, and also the travel pad as I travel 3 times a year to Mexico and have horrible pain sleeping on hotel mattresses without my Cuddle Ewe pad. I have also tried many different kinds of pillows and yours are the best. They don't look like much, but they are simply perfect for keeping my fibromyalgia pain at bay.

Thank you all so very much for a great product that I simply refuse to live without."

"You have transformed our sleeping arrangements into a soft heavenly experience. We added the comfortable mattress pad and man what a pleasant surprise! In one night we went from a roll-around sleep bed to silk sheets on a cloud delight. It is so nice I'm afraid to check the other thrills tucked in the cloud folds. There is my testimonial. Use it and grow with it. It's a great product."

As always,

"We purchased a Cuddle Ewe under quilt earlier this year and have been very pleased. Recently my sister-in-law from the United Kingdom vacationed for five weeks with us and slept in the bed with the Cuddle Ewe quilt. She says she never slept so well in her 66 years!"

Best Regards,
Roger and Pat P.

"As a Fibromyalgia Support Group Leader, I have seen many products touted as being beneficial for the many facets of FM. Some have a placebo effect, some don't work at all, and a few bring some relief but at a cost that is prohibitive. I believe your product is effective in aiding restorative sleep,

at a cost that is minimal, considering the amount of use it offers. It certainly makes going to bed more like comfort, and less like torture.

Thanks!

"...I wanted to enclose a personal letter to say how wonderful your product is. I have noticed a decrease in my pain when I get up in the morning and I have noticed a deeper more restful sleep than with my other mattress. The mattress I was using was less than a year old, but your product surpasses the pillow top in comfort and in allowing me to have the restful sleep that seems to evade those of us who have Chronic Fatigue and Fibromyalgia.

I am not pain free, as that is just a part of this disorder that I have to accept, but your product has been one that I will tell others with Chronic Fatigue and Fibromyalgia that they should invest in to help them get a better and more comfortable nights sleep.

Thank you for your product."

"I received my Cuddle Ewe approximately three weeks ago. I was a bit skeptical at first, but I was sleeping better the second night! I suffer from Fibromyalgia and my husband has chronic back pain. Thanks to you, our aches and pains are almost eliminated. I finally look forward to bed.

Thanks for a great product."

"We bought our Cuddle Ewe in July of 1999 and we are still as happy with it now as we were when it first arrived. My Fibromyalgia is going strong as ever and it has now moved down into my lower back with a vengeance and is causing an extreme amount of pain and the only thing that feels good to me is when I lay down on my Cuddle Ewe. I still to this day give a deep sigh of OOOHHHH that feels so good!!!

I truly recommend the Cuddle Ewe for anyone who is having problems with Fibromyalgia or their back. It really makes a difference on your bed.

Thanks again for such a wonderful product."

"I have been diagnosed with Polymyositis, which is similar to fibromyalgia.

I do not know how to thank you for the most wonderful sleep I have had in the past 2 years. I awaken with no stiffness or pain and I feel rested. I also take naps on this wonderful 'Cuddle Ewe'.

Thank you very much. I think doctors should be aware of this product and recommend it to their patients."

Sincerely,
Sarah M.

"We wouldn't be without our Cuddle Ewes!!!! I found relief when I purchased a Twin for myself... It wasn't long before the Twin ended up on my son's bed (he loves it!!).

For my birthday, my husband purchased a Queen for our bed. It was amazing how much better I feel once I had a Cuddle Ewe back on my bed. Thank you so much for such a wonderful product. I can't imagine life without my Cuddle Ewe.

I think my next purchase will be a new Travel (Cuddle) Ewe!!!"

Sincerely,
Mrs. Jamie C.

"I want to tell you folks how much I have enjoyed the Cuddle Ewe underquilt. I have rheumatoid arthritis and getting my rest at night has been a problem for many, many years. But I have had the most restful sleep since I have slept on this underquilt.

When I saw the underquilt advertised, I felt that might be an answer to my sleep problem, and it was. I hope other people will enjoy the underquilt as much as I have."

Most Sincerely,
Anne R.
Washington, PA

"I bought this product for my wife to help her tolerate her FM. She has often cried herself to sleep because of the pain. I was desperately searching for anything that would help. In less than 3 days use of the underquilt my wife is able to sleep all night.

We've spent a lot on the supposed best mattress set we could buy. The underquilt was the best investment of the two."

Thank you,
Richard S.
