

April 30/05

Ben and Katie,

We are so pleased with the results of the **Regency II Water Ionizer** in such a short time.

The Ionizer installs easily and provides for our family of four a variety of healthy drinking water with just a turn of the tap. Within days we were using the Ionized Alkaline water for all of our internal needs, drinking, cooking, coffee, tea, ice, even **Lucky our dog** was hooked by the pure taste. There is no other water that tastes this great.

For me, energy and alertness increased. My taste improved daily and my acidic stomach problems subsided. My tongue that had an ugly covering due to the stomach acids was cleaned up, it looked and felt healthy. A splinter lost in the meat of my left hand four years ago is moving out. The toxins were being passed from our bodies as we increased the PH of the Ionized Water. **My family** started to look and feel healthy. I felt healthier. Wow!

We had to test the **Regency II alkaline water** on our friends to, so I purchased 10 water cooler bottles and distributed them. Within one month the overall results have been astounding. Many differing medically named situations, some small and some big.

Mr. H. was in hospital and had been in a coma for 3 days with liver and kidney problems. Doctors said there was no hope of recovery, only 1/4 of the liver working, with blood spots on the brain, heavy fluid retention, and weakness. He was restrained to the bed. The family was called in. We prayed while Mr. H was read his last rights. That day he awoke from the coma and spoke. The nurse said it was okay for Mr. H. to sip the Ionized Water. He drank all he could handle over the next two days.

Soon Mr.H. was talking and able to use the washroom. Next day Doctor says cat-scan result is clear. Seven days drinking only the Ionized Alkaline Water Mr. H. had a far higher PH level and started to recover his health and follow a strict diet. Two weeks later and he was allowed to go home. Thank you to the doctors for their medical endeavors and ongoing commitment. Still a tough road for Mr. H. and we continue to support him and his family in their recovery.

Mr.W. is a diabetic. Three weeks ago I opened my big mouth and asked him to try the healthy Ionized Water as a test. His blood sugar level was 6.3 at the start, now down to 5.2, I trust that is a good thing.

Mrs. T., a cancer patient, developed a slight reaction with the first cooler bottle run with a high PH level. She is very familiar with Natural Medicine having worked with a local Doctor of Natural Medicine for four years. Toxins quickly started to push toward the surface of her skin. One must start off with a moderate

PH level and build on this as we begin to hydrate our bodies. The amount of Ionized Water consumed at given PH levels is relative to the benefits. Consultation with her Doctor confirmed this.

We are encouraged by Mrs. T. and her will to overcome the odds. I believe she has a good chance. The Ionized Alkaline Water has given Mrs. T. more energy. She also told me she felt clearer mentally and not so drained by the end of the day.

Mrs. E. was a nurse at a local hospital and suffered a severe back injury requiring a disability discharge and continued pain relief. As with most of us she has other problems too. Three weeks after using Ionized Alkaline Water, Mrs. E. was in "heaven", able to walk to the store and get use out of her day without getting so burned out. Mrs. E purchased her own Regency II Water Ionizer and is working with her Doctor to cut back on the prescribed morphine based medication.

Mr. E. is so happy with the progress he is guzzling healthy water by the bucketful. Once a skeptic, now himself is on the road away from Acidosis toward better health.

Ben this is just the tip of the iceberg to date. I could keep typing all night with happy reactions and results.

Thank you so much for the support. We feel very positive with our association. Time is always short so must say thank you once again to all,

God bless and good health,
Pete and Maria
